

ACCP Aluminium Bead Core Composite Panel Lattice Wave 1.2*2.5m

Our Product Introduction

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

- Place of Origin: China
- Brand Name: MetalPlus
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: Ep paper ,kraft ,pallet
- Delivery Time: 20days
- Payment Terms: T/T ,L/C
- Supply Ability: 100 000ton each month

Product Specification

- Product Name: Aluminium Core Composite Panel
- Application: Construction
- Material: Aluminum
- Surface Treatment: PVDF Paint
- Size: 1.2*2.5m Or Customized
- Logo: Customized
- Highlight: **ACCP Aluminium Bead Core Composite Panel, Lattice Wave Core Aluminum Composite Panel, 1.2*2.5m Aluminium Bead Core Composite Panel**

Product Description

ACCP / Aluminium Bead Core Composite Panel / Aluminum Lattice Wave Core Composite Panel

Features

Light weight:

With the innovation of core technology, 4mm thickness Aluminium Core Composite Panel has only 3.6kg/m² weight which is lighter than other materials with the same rigidity. It saves cost in transportation and labor.

Fireproof performance:

This structure assures the panel of non-combustibility and makes it more reliable and popular in all façade applications, especially in USA (NFPA285), UK (BS 476-4 standard) and Australia (AS1530.1 standard) where there is a higher requirement and demand on fire retardancy.

Formability:

Aluminium Core Composite Panel is convenient to be cut and grooved and less wearing on routers. Therefore, it saves your budget and time. It takes on many different shapes and its perfect formability does not affect its stability or flatness.

Environment friendly:

Being a member of our earth, we have the responsibility to protect our homeland. Our corrugated aluminium core of Composite panel is 100% recyclable. Also there is no pollution during the production and application.

As a creative facade material, ACCP has a totally different from traditional composite panels:

Aluminium Core Composite Panel
ACCP

Advantage

Lighter than aluminum solid panel
Much cheaper than aluminum honeycomb panel
A most suitable for high Tower material .
More durable than aluminum corrugated panels . A point to point structure make the super strong force .

Strength

ACCP

Box made of 1300 x 2700mm

No derformation with 62KG

No derformation with 140KG

No derformation with 210KG

No derformation with 300KG

Easy Process

grooving and
bending

easy tools is enough

[grooving 2](#)

ACCP Application

1. Exterior decoration of building curtain wall
2. Building interior wall decoration
3. Renovation and decoration of old buildings
4. Wall panel and ceiling decoration
5. Identification plate
6. Ship, high-speed rail, aircraft interior
7. Ultra-thin stone backing board
8. Modern furniture decoration

Continuous Production
