

PVDF Coating Aluminium Core Composite Panel Non Combustible 1.2*2.5m

Our Product Introduction

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

- Place of Origin: China
- Brand Name: MetalPlus
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: Ep paper ,kraft ,pallet
- Delivery Time: 20days
- Payment Terms: T/T ,L/C
- Supply Ability: 100 000ton each month

Product Specification

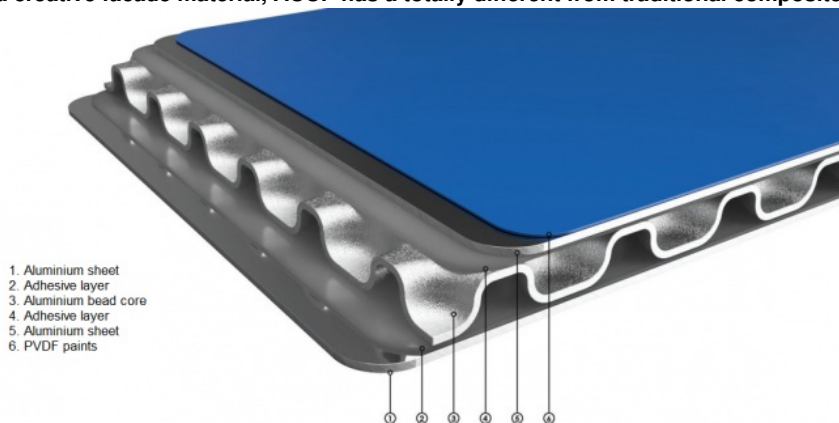

- Product Name: Aluminium Core Composite Panel
- Application: Curtain Wall, Exterior & Interior Of Elevators
- Material: Aluminum
- Surface Treatment: PVDF Paint
- Size: 1.2*2.5m Or Customized
- Usage: Exterior Wall, Interior Wall
- Highlight: **PVDF Coating Aluminium Core Composite Panel**
, **Aluminium Core Composite Panel Non Combustible**
, **Aluminium Core Composite Panel 1.2*2.5m**

Product Description

PVDF Coating Aluminium Core Composite Panel ,Non-Combustible

The aluminum core composite panel is an improved version of aluminum honeycomb board and aluminum Composite board. ACCP does not require the expensive unit price of aluminum honeycomb board, but ACCP Is stronger and lighter than aluminum honeycomb board. aluminum core composite board is lighter than Aluminum composite board and has a higher FR rating. aluminum core composite panel has an all-aluminum Structure, no polyethylene plastic components, and is 100% recyclable. aluminum core composite board is Environmentally friendly and reaches A2 level of fire retardant

As a creative facade material, ACCP has a totally different from traditional composite panels:

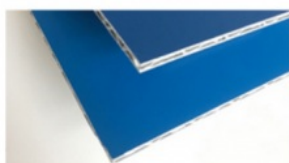

Aluminium Core Composite Panel
ACCP

Features

- Non-combustible
- Super light
- Easy to install
- Ultra- flat
- High Strength

Strength

ACCP

Box made of 1300 x 2700mm

No deformation with 62KG

No deformation with 140KG

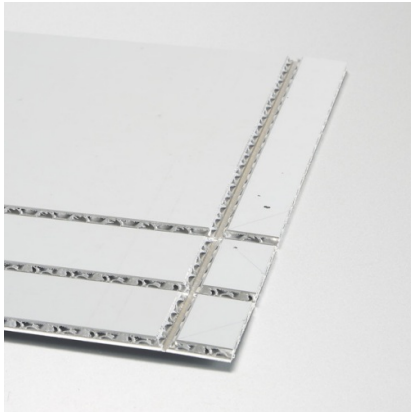

No deformation with 210KG

No deformation with 300KG

Easy Process

ACCP is ideal for laser cutting, stamping, perforating, bending, curving, grooving and other sheet metal processing.

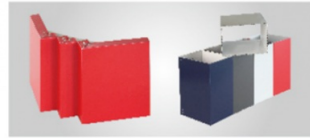

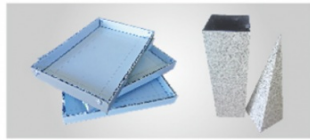

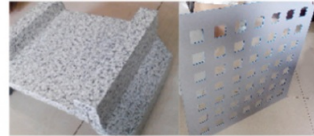

grooving and
bending

easy tools is enough

[grooving 1](#)

[grooving 2](#)

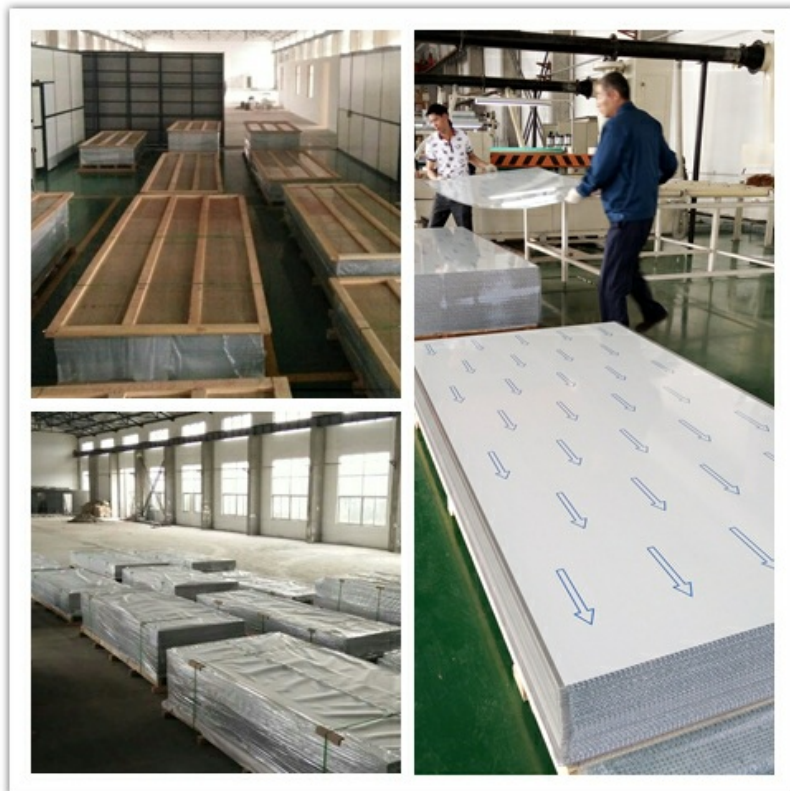

Advantage

Lighter than aluminum solid panel
Much cheaper than aluminum honeycomb panel
More durable than aluminum corrugated panels
Flatter than normal composite panel

Application

Architectural wall Cladding and decoration
Architectural Rainscreen Facades and canopies envelope.
Lightweight interior and exterior architectural panels.
Aerospace, Marine & Transport Flooring, ceilings, Walls & Partitions
Silk Screen Printing Tables, doors and cabinets
CNC Vacuum Bases
Lightweight Floors, Walls, partitions, canopies, Ceilings, roofs etc.
Special Purpose Panel Design

Continuous Production
